

PRINT SPECIFICATIONS

KDP AMAZON STANDARD

To ensure "Hexadigital" quality across physical distribution, all four volumes of *Stupid Things Smartest People Do* are engineered for the following print dimensions:

1. Physical Dimensions

Trim Size: 6" x 9" (15.24 x 22.86 cm). This is the industry standard for professional non-fiction, offering the perfect balance between portability and authority.

Internal Margins: 0.75" (Inside/Gutter) to ensure text does not disappear into the spine; 0.5" (Top, Bottom, Outside).

2. Typography & Layout

Body Text: 10pt to 11pt serif font for high readability.

Headings: Sans-serif (Helvetica/Arial) for a modern, technical "Hexadigital" aesthetic.

3. Print Quality

Paper Type: Cream paper for a classic "legacy" feel, or White paper for a crisp, modern technical manual look.

Cover Finish: Matte finish to match the sophisticated, no-nonsense "Architect" branding.

All PDF exports for the final manuscript will be calibrated to these 6x9 specifications to ensure 1:1 fidelity between digital draft and physical copy.
